PROFILE

I am a WordPress developer with extensive experience in website design and development, including customizing themes, implementing plugins, and localizing/Arabic translation. I also have solid experience in hosting management and optimizing site performance to ensure fast and seamless user experiences across all devices. Proficient in HTML, CSS, JavaScript, and PHP, I focus on SEO optimization, website security, and delivering practical digital solutions that help clients achieve their goals efficiently and professionally.

EDUCATION

**Automotive and heavy machinery software engineering at
Damacuse Univercity, Syria-Damascus**

January 2023 - Present

Diagnosing and repairing machinery malfunctions using software

PROJECTS

SITENESTWEB • [Link](#)

A model for a hotel and room booking platform with the ability to book appointments and rooms and link it to global payment methods.

Al-Mahmoud Store • [Link](#)

Designed a custom dark and gold brand-themed interface that is fully responsive across mobile, tablet, and desktop. Implemented core store features: product categories, search, wishlist, shopping cart, and customer login/registration. Added multilingual support and a live chat button to improve customer experience. Created supporting pages (FAQs, Shipping Policy, Contact Us) to build customer trust. Optimized performance and SEO for fast loading and better search visibility.

Flavora Restaurant • [Link](#)

A website introducing Flavora Restaurant, which offers the most delicious Italian cuisine.

The Best Eleven • [Link](#)

The Best Eleven Company specializes in importing all types of clothing, shoes, and bags, in addition to logistics services such as accompanying customers on shopping trips, inspecting the quality of shipments ordered by customers from China, providing remote shopping services, and shipping worldwide with a guarantee of product safety and quality.

Ai Media Service - Website Design (Freelance) • [Link](#)

An informal freelance project: designed and developed a bilingual (English/Arabic) website for an AI-powered media production studio, showcasing video production services and online courses with a clean, modern, and responsive layout.

D-TECH - Company Website Design (Freelance) • [Link](#)

Designed and developed a modern, responsive corporate website for a Jordan-based IT outsourcing company, presenting its IT services, computer support, networking, and web development offerings with a clean, tech-focused design.

LANGUAGES

Arabic - Native
